

# Konftel 300

## For all your meetings

The Konftel 300 is an incredibly flexible and powerful conference phone. It supports user scenarios from traditional telephony to PC-based collaboration for everything from personal meetings to large auditoriums. It's also packed with smart features.

A USB port makes the Konftel 300 ready for all the apps and services we use to communicate and collaborate via computers – such as Skype for Business, Cisco Webex, Avaya Equinox, Unify Circuit and Google Hangouts. Don't compromise on audio quality when your teamwork goes “live” in an online meeting.

### SCANDINAVIAN DESIGN

The audio is expertly designed around our OmniSound technology, which comes as standard in all our products. The style of the Konftel 300 is anything but standard, allowing it to take pride of place in the finest conference rooms. The classic Scandinavian design is both visually appealing and functional.

OmniSound®      

- Meeting size: Up to 20 people
- Analog
- Hybrid: combine meeting app with phone calls
- OmniSound® with HD audio
- Connectable to expansion microphones and PA systems
- Mobile cable connection
- Recording on memory card
- Two-year warranty

### GROWS WITH THE TASK

The Konftel 300 fits everything from small meeting rooms to large auditoriums. It includes the option to connect a pair of expansion microphones to increase the pickup range and cover up to 20 people in a room. You can also connect a wireless headset if you're lecturing. If you use the PA box to connect to a PA system, there is no limit to the size of the meeting.

### SMART FEATURES

Use the line selector to switch easily between connections (analog, USB and mobile phone via cable), or connect calls. Other popular features include recording onto an SD memory card, and a conference guide that will take you through the steps to set up a multi-party call and create call groups.

## Specifications Konftel 300
